G-MEO's Study Abroad Programs provide students with the opportunity to study abroad in several locations in greater China. Our programs offer both academic rigor and hands-on experience by combining coursework with the chance to volunteer or intern with companies and organizations while abroad.

Why G-MEO?

Studying Abroad With G-MEO Fits Your Academic Path and Future Plan

Whether you choose to study abroad with G-MEO in Chengdu, Shanghai or directly enroll with our partner university in Taipei, or take our online courses, G-MEO's programs will keep you on track to graduate on time. Our courses allow you to earn credits towards general education requirements or your major. Each course has been carefully chosen to ensure that your credits transfer back to your home institution upon completion of your time abroad. And while all of our courses are taught in English, you can also take language courses in Mandarin.

Beyond the classroom, G-MEO also provides quality internship opportunities and immersive culture activities for students. By attending G-MEO programs, you can not only enjoy the best study experience and step ahead of your career.

Our Founder

Dr. David Chang

Dr. David C. Chang was named the ninth President of Polytechnic University, now known as Polytechnic Institute of NYU, on July 1, 1994 and was appointed Chancellor in July 2005. In addition to being a full professor at his home institution, Dr. Chang also holds honorary professorships at five major universities in China.

Dr. Chang holds a Master's and Ph.D. in applied physics from Harvard University and a Bachelor's degree in electrical engineering from National Cheng-Kung University in Taiwan. He was elected a Fellow of the Institute of Electrical and Electronics Engineers (IEEE) in 1985, is a past President of the IEEE Antennas and Propagation Society, and Chairman of the U.S. National Committee of the International Scientific Radio Union. Dr. Chang has a distinguished record of academic achievements in electromagnetic theory, antenna analysis, microwave & optical integrated circuits. He was awarded the IEEE Third Millennium Medal in 2000.

Apart from his academic activities, Dr. Chang has been actively involved in a number of civic and not-for-profit organizations including serving on the Commission on Independent Colleges & Universities (CICU), been a member of Mayor Michael Bloomberg's Transition Team and Mayor's Committee on Appointments. He was appointed by Mayor Bloomberg to serve on the Panel for Educational Policies, which is the governing board for New York City's school system, and has served in 2009-10 as its chairman. Dr. Chang is a member of the Council on Foreign Relations; was on the National Advisory Council for the Bill & Melinda Gates Millennium Scholars, 2001-2010, and currently serving as a board member of The Committee of 100, a Chinese American organization dedicated to better Sino-American relations and is currently serving as a co-chair for its international programs. He co-founded in 2011 G-MEO and has been serving as its Chairman of the Board of Directors and Chief Executive Officer.

About G-MEO

G-MEO, a full-scale educational service company has been operating the Chengdu American Center for Study Abroad in Chengdu, China since 2012, to provide a memorable semester-based study-abroad and/or internship experiences for American college students. Additionally, it has offered a multi-session summer school program in Chengdu and Shanghai since 2015, open to both American students and Chinese international students enrolled in American universities.

G-MEO is a privately-held American corporation, based in New York City, with a 13-year operating history, and funded by private investment. During this time, it has forged strong strategic relationships with higher education institutions, government agencies and private sector enterprises in both the US and China.

Why Study Abroad in China?

ENHANCE YOUR CAREER PROSPECTS

China is likely to be part of your future. Whether you go into business, engineering, health care, architecture, education, hospitality, or law, your experience of studying abroad in China will help you succeed.

China's economy is the world's second largest and is still growing. It is America's fastest-growing major export destination and third largest by volume, after Canada and Mexico. Experiencing its culture and understanding its market growth will boost your career.

EMPIRICAL STUDIES HAVE SHOWN THAT STUDENTS WHO STUDY ABROAD:

- Are more competitive in career development
- Are better prepared for a global or multicultural work environment
- Enhance their experiences, knowledge, and decision making
- Strengthen their academic, individual, and social skills
- Are highly satisfied with their study abroad experience

Student Voices

What G-MEO Students Think About Studying Abroad in China

"I've been very lucky to have been a part of this company because of G-MEO "3+3" Study-Internship Program. Everyone in the company has been so welcoming, kind, and a bit curious. Each day my co-workers and I would have lunch together, I would always learn something new about China, and they would always learn something new about the US. My time at the company has also taught me countless important differences in business and culture between China and the US. But the most important thing is that I've made a great network of friends in China that I can rely on when I want to come back to China!"

Alex Gulino
From American University

"One of the beauties of China and studying abroad is that we never know exactly what to expect. Every day is an adventure, and every night is a new opportunity to explore the world around us. To experience and be witness to something so different, so inherently special, left me excited with the prospect that there is so much more to the world than what I know."

Christina Batista
From Fairleigh Dickinson University

"Our first week of coming to China in Spring has been such a spectacular adventure...Everyone that we have encountered has been friendly and all of us are excited to see what China has to offer. Each day we are greeted with new things to find and explore. The culture and all the experiences we have are incredible."

Kathryn Calenberg-Laviola
From Nazareth College

I spent a whole month in Chengdu before Shanghai, thought I got used to China and I knew everything, but I was wrong. Shanghai had so much more to offer and was completely different. The people, the atmosphere and life everything was different. I landed in Shanghai and honestly, that was one of the decisions that I made, which I would never regret. I had the opportunity to explore a lot of different places, malls, take a bunch of beautiful pictures and meet a lot of amazing people.

Vanshika Reddy
From Rose-Hulman Institute of Technology

"There is an old famous Chinese saying that says; It is better to travel 10,000 miles than to read 10,000 books. This program allowed us students to not just take classes but travel as well. One of my favorite trips here was going to go see the giant Pandas. Now that's something that you never really get to see in the U.S. Some of the experiences that G-MEO put together really allowed us to get out and experience China."

Brayden Bruess
From Norwich University

"The culture of Chengdu is vibrant and incredible. Throughout the national holiday, art festivals and street parties abound – the city never sleeps and rarely slows down. However, it doesn't feel crazy or dizzying. Everything moves at a constant speed that's easy to jump in to."

Grant Wuerslin
From Carroll University

"Experiences with G-MEO this fall semester have been beyond my expectation. The professors are amiable and the staff are being responsible. Not only have they cared about our daily life, but also they have been communicating with the students and organizing one activity after another, which impressed me a lot. Everyone had great fun at the Halloween Party. Those decorations, food, and fun items truly created the vibes for students to relax and have fun."

Zekai Liao
From American University

"I am a freshman student from Stevens Institute of Technology. I have been achieving a lot in G-MEO's program. Personally, I have made a lot of friends. As many of the students are from other universities, I can learn about the unique features of their schools. The professors have a good sense of humor, which increases my interest in studying. I'm also taking part in the internship program. At work, my internship supervisor is teaching me a lot about interpersonal skills and work ethic. There are also many activities that have enriched my extracurricular life. The G-MEO program benefits me a lot."

Zhe Zhao
From Stevens Institute of Technology

"The two-day field trip to Qiaopi Tibetan country has ended. In the past two days, this group of Chinese international students from G-MEO and I experienced a special World Music class with Professor Liu. We watched Tibetan dancing performances and experienced folk music. We also participated in a bonfire party with local people. On the second day, we had a tour around the Shenmulei scenic spot, where the beauties of nature astonished all of us. Thank you G-MEO and Professor Liu for inviting me on this fun and fruitful trip!"

Ting Wu
From Sichuan Conservatory of Music

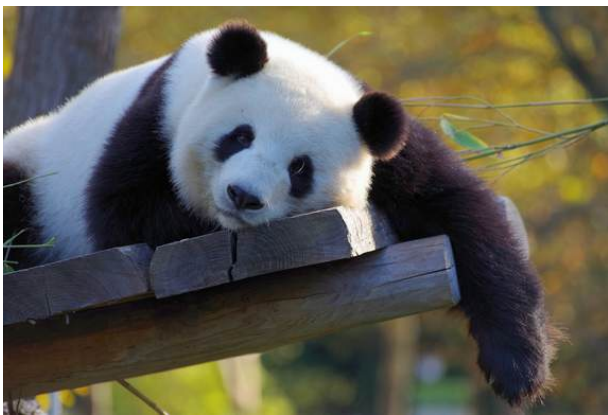

"My experiences studying with G-MEO have been great. The professors here are committed to English instruction, while also arranging different field trips. For World Food and Culture class, we went to the largest comprehensive market in Chengdu to observe and learn about different cooking ingredients. In the meantime, G-MEO also offers different themed snack-and-dessert days and activities to help us better engage in the learning community and experience distinct Chengdu features."

Ziqing Qiu
From American University

"I started studying at G-MEO in March this spring. Because of the pandemic, I was taking classes online last year, but the G-MEO program gave me a chance to return to the classroom. At Orientation day, I felt strong enthusiasm from the professors and my classmates. The courses I chose are World Food and Culture and Public Speaking. Both professors are very interesting and patient. The atmosphere in class is also very good. The professors always answer our questions after class. I feel less worried and stressed by learning with G-MEO. There are also diversified weekly activities, such as bubble tea day (whisper: our bubble tea was from Lele Cha, not cheap), doughnut day, and some off-campus activities. The group party after mid-term exams for all the members was especially full of fun! It makes me feel that learning and social life can find a really good balance here."

Yunxuan Zhu
From Fairleigh Dickinson University

Our Program Locations

Chengdu

CHENGDU AMERICAN CENTER

The Chengdu American Center for Study Abroad is located in the capital of Sichuan Province. Students can choose to study at the Center for an academic year, semester, summer or internship only. While at the Chengdu American Center, you will study with a mix of American and Chinese students. There is also plenty of opportunities to see and experience the city of Chengdu and its culture. Especially when in the hometown of Pandas, a visit to the popular Great Panda Research Center is a must!

Shanghai

G-MEO SHANGHAI CENTER

The G-MEO Shanghai Center hosts students during Summer Session. The Center is located in a downtown area and nearby top Chinese universities such as Fudan and Tongji University. American and international students can enjoy their summer in one of the most modern cities in the world.

Taipei

MINGCHUAN UNIVERSITY

Taiwan is an eclectic mix of Chinese, Japanese and Western cultures, beautifully combining tradition and modernity. G-MEO students directly enroll in English-taught classes with classmates from around the world.

Virtual programs are also available

Who Can Apply?

G-MEO's programs are open to a wide variety of students during semester, winter, summer, and a full year. Our participants may include current students matriculated at US universities who wish to earn their credits, students who are aiming to earn credits before pursuing education in an overseas university, and high school students in good academic standing who want to get ahead. All programs offer a chance for students to interact and study together.

All students must be in good academic standing in order to participate in G-MEO's programs. Students are suggested to discuss in detail their intent to join the program of their choice with their home institution, and obtain the approval of their academic advisor prior to submitting their application.

Application Deadlines

- Summer Programs: Depends on courses

Hello

CHENGDU

Chengdu has a population of over 21 million and is a booming economic center. China's "Go West" policy aims to develop Chengdu into a financial and cultural center on par with Beijing and Shanghai. It abounds with urban energy and entrepreneurial dynamism; its new subway system opened in 2010. Yet with a balmy, sub-tropical climate and a slower pace than Beijing or Shanghai, Chengdu is known for its quality of life. It is famous for its world-class cuisine, leisurely tea houses, local opera and historic temples.

It is also easy to escape Chengdu to hike or cycle through timeless rural villages, Buddhist and Taoist temples and monasteries, and mountain preserves. For those interested in wildlife and biodiversity, Chengdu is close to the Giant Panda Research Center and the Wolong Nature Reserve. There are recently excavated archaeological sites, such as Sanxingdui which rivals the Terracotta Warriors of Xi'an, with breathtaking bronze objects over 4,900 years old. These cultural elements will also form part of your studies.

APPLICATION DEADLINE

- Fall: August 15th
- Spring: February 10th

The Study Away American Credit Program (“Study Away Program”) has been developed by G-MEO to accommodate Chinese international students who are located in China but enrolled in US universities. The Study Away Program puts Chinese international students in an English language, US-style learning environment in China while also keeping their American education on track. Those who are not yet enrolled in a US university but plan to in the future may also participate in order to earn credits and get ahead. Students will not only have access to convenient and high-quality academics, but also have the chance to participate in part-time internship and on-site extracurricular activities. This program also provides US universities with a suitable site in China to host their incoming Chinese international freshmen, and to launch their overseas semester program.

The Study Away American Credit Program was developed with one of the top US-accredited universities in New Jersey, Fairleigh Dickinson University (FDU). Upon completion of the study away program, FDU issues each student an official transcript with 100% credit transferability, assuring that all students can stick with their study plans. Students can look forward to taking advantage of FDU’s valuable contributions to this program.

Who Should Attend?

If students are unable or choose not to come (back) to the US for any reason, they are welcome to join us for the Study Away Program. They can fulfill their academic goals and enjoy a colorful university life in the beautiful city of Chengdu!

Student Voices

"I feel very happy participating in this program where I can not only earn credits but also get to know new friends, classmates, and professors. In the meantime, I enjoy doing the internship program. At my internship, I am responsible for making teaching plans and giving demonstration classes to children. My skills in making PowerPoints and public speaking have improved a lot. It's a great pleasure to be in the G-MEO program."

--Yansong Hu, Finance major, Junior

"How time flies! This is my second semester with G-MEO. As a returning student, I have participated in most of the activities organized by G-MEO. By taking part in these activities, I got to learn more about the cultural heritage of Sichuan. These activities also brought about lots of entertainment to our busy studying life. Although we are temporarily away from campus in the US, we can still continue our studies with G-MEO in an authentic yet slightly different way. There is no end to learning. I really appreciate meeting G-MEO on my life path."

--Yier Ni, Business, Language & Culture Studies major, Sophomore

Internship & Experiential Learning

Chengdu American Center for Study Abroad

G-MEO Internship Programs

Students accepted to study at the Chengdu American Center are eligible to apply to one or more of the unique internships available. Weekly time commitment and duration of internships can vary. They can be part-time or full-time, depending on the particular internship and program. Students might work at the Chengdu High Tech Zone in one of many new industrial and tech areas such as IT/computer science, engineering, consulting or biomedical engineering and pharmaceuticals. Students interested in education or research can work at schools in Chengdu or work closely with a research fellow at local universities on projects that range across economic development, migrant education, earthquake reconstruction, and tourism development. Students with specific areas of interest that are not listed can also place a request to help find an internship. All students must complete an internship application online.

On-site Internship

Summer Credit-Bearing Internship Program (SCBI)

This program is a summer internship and experiential learning program that caters to students who are seeking a career building summer opportunity abroad. This 5 to 8 weeks full-time internship allows students to gain additional professional skills and knowledge through taking Business Mandarin Chinese and enrolling in our Professional Development and Experiential Learning course.

International Internship Certificate Program (IIC)

The IIC program is a non-credit internship program designed for co-op and graduate students to enhance their professional and global skills. Students can live abroad and intern full-time. Meanwhile, Chinese tutoring and cultural activities will be arranged to enrich this unique experience.

Semester Part-Time Internship

Depending on your course schedule, students can also intern part-time while studying for a semester with G-MEO. Internship placement, Professional Development, and Internship courses are included in your tuition!

3+3 Study-Intern Abroad Program (Spring + Summer OR Summer + Fall)

This long-term program allows students to do a part-time internship and take 3 months of course work including Business Mandarin Chinese during the Spring or Fall Semester. Students also enroll in our Professional Development and Internship course over the entire period of the program. Following the Spring semester or prior to Fall semester students will complete a 3-month intensive full-time internship in Chengdu during the summer.

Virtual International Internship Programs in China

G-MEO offers an exciting Virtual Credit Bearing Internship Program and Non-credit Bearing Internship (IIC). Credit bearing programs include 1 professional development course/seminar, which IIC students can also apply for auditing. Besides, a team-based, part-time internship with an organization in China will be offered.

US college students who participate will be able to meet their academic and professional goals and gain valuable global experience no matter where they are in the world. The virtual nature of this internship program provides students with important skills in time management, communication, and cultural differences, all from the convenience of their own home. This is a great opportunity for students of all majors to make the most of their time and get ahead in their careers.

Professional Development & Experiential Learning (PDEL)

This experiential learning endeavor will provide you the opportunity for self-reflection, develop as a professional, build your professional network, and inform your career choices while you work with an organization in Chengdu.

Hello

SHANGHAI

Shanghai is one of the world's largest and fastest-growing cities. The Huangpu River splits Shanghai in two. West of the river is known as Puxi, while East of the river is Pudong. Locals describe Puxi as the older and central part of the city and Pudong is more newly developed. With a population of 24+ million people, it is also one of China's most influential economic, financial, cultural and business hubs. Shanghai is a very modern city that still embraces ancient traditions. Visitors have the opportunity to witness cutting-edge technology and transportation while also immersing themselves in East Asian culture.

The food of Shanghai samples a wide variety of Chinese cuisines as well as local delicacies. Favorites include soup dumplings, sweet and sour fish, crispy fried sweet pork, sweet rice ball soup, mooncakes and more! There is also plenty to do in the city from visiting cultural sites, museums, shopping and popular nightlife. Students can get a glimpse of Chinese history by visiting one of over 20 museums, Jade Buddha Temple, Yu Garden, or The Bund. For those interested in shopping, Shanghai is home to Nanjing Road one of China's most popular shopping streets. Or when you need to escape the hustle and bustle, enjoy some downtime on Chongming Island which is known for its bountiful forests, lakes, wetlands and natural beauty. You'll never be bored in Shanghai!

G-MEO ADVANTAGES

UNIVERSITY OFFICIAL TRANSFER

Upon successful completion of the program, one copy of the official transcript from U.S. University will be mailed to the student's home institution or other location required by students.

KNOWLEDGEABLE AND PROFESSIONAL TEAM SUPPORT

All G-MEO staff are carefully selected, knowledgeable professionals, trained in recognizing and handling the needs of our students. With 8 years of student affairs experience, G-MEO also offers professional support and extracurricular activities to ensure the students have positive, community-oriented learning and growing experience.

24/7 EMERGENCY HOTLINE IN THE US AND CHINA

At G-MEO, we take personal health and safety very seriously. Resident or Program Directors will work closely with host universities to ensure our students, both individually and as a group, will receive the best care possible.

FLEXIBLE AND CUSTOMIZED PROGRAM

G-MEO has years of experience in developing customized educational programs by working closely with U.S. universities and colleges. You are welcome to contact us to find the best solution for you.

Hello

TAIWAN

During its 300-year long history, Taipei, the capital of Taiwan, has been a Chinese tea-trading post, Japanese colony and a KMT base. Today, Taipei has evolved into one of the most livable and lively cities in Asia. Taiwan's capital is a relatively small city compared to other metropolises of Asia but offers as much culture and dynamism. Situated in the Taipei Basin, surrounded by the Yangmingshan Mountains and Danshui River, Taipei's geographic location makes it very easy and convenient to travel to many top destinations. The city is also well known for its blooming economy and energy. With a population of 2.5 million residents, it is home to many technology companies with focuses on electronics, consulting, food service, technology management and financial services.

A trip to Taiwan must include a visit to one of its many world famous night markets to sample the different flavors of the city, which draws influence from Chinese and Japanese cuisines. If cultural immersion is what you are after, the National Palace Museum houses the finest selection of Chinese art. If you're interested in nature, take a dip in one of northern Taiwan's hot springs or partake in a birdwatching tour at Gandnu Nature Park or Da'an Forest Park. Maybe you can spot the Malaysian night heron! Taipei has it all - delicious food, plenty of activities and a rich culture - which is why it has become a top destination for world travelers and study abroad students.

Ming Chuan University (MCU) is a well-known, internationally focused university located in Taiwan. It was the first university in Taiwan to offer courses completely taught in English, and the first university in Asia to be accredited by the Middle States Commission of Higher Education, U.S. As one of Taiwan's most respected institutions, it was listed in the Top 10 "Preferred universities" among major international corporations in Taiwan. MCU offers an international and multicultural campus environment and a bilingual (English/Mandarin) learning and living environment. With more than 150 partner universities globally, it has more than 2,000 international students coming from countries all over the world.

Excursions

Near our Taipei and Taoyuan campuses, you can visit the National Palace Museum, home to perhaps the finest collection of Chinese art in the world. You can see atmospheric old streets and temples in towns like Lugang and Tainan. Opportunities for outdoor activities include visits to Taroko National Park, a narrow ravine created by a river which has cut through the mountains, Yu Mountain National Park, which has the highest peak in Northeast Asia, Yangming Mountain National Park, with volcanic craters and lakes, Kending National Park, Taiwan's tropical area, and Dongsha Marine National Park, with white coral and shell beaches.

SUMMER IN U.S.A.

SUMMER BOOT CAMP

Stevens Institute of Technology

LANGUAGE OF INSTRUCTION

English

APPLICATION DEADLINE

- March 31st

ABOUT STEVENS INSTITUTE OF TECHNOLOGY

SIT is located in Hoboken, New Jersey, just minutes from New York City. Founded in 1870 by America's First Family of Inventors — who patented steam ferries and the modern form of railroad track, among many other inventions — technological innovation has remained the hallmark of Stevens' education and research programs ever since. U.S. News & World Report rankings of higher education institutions have recognized Stevens as one of the nation's top universities since 2011.

PROGRAM HIGHLIGHTS

- Interactive projects and activities that foster innovative and entrepreneurial spirit
- Enhancement of academic, professional, and business skills
- Visits to global and local businesses, prestigious universities, and cultural sites
- Cultural immersion in the New York City and Washington DC area
- Certificate of Program Completion provided by Stevens Institute of Technology and G-MEO upon successful completion of the program

PROGRAM GOALS

- Improve their English language communication skills (writing, speaking, and listening)
- Gain a thorough understanding of American academic culture
- Learn about Innovation and Entrepreneurship in the U.S.
- Be exposed to the American professional culture
- Become acquainted with programs of graduate study in the U.S.

WHO SHOULD PARTICIPATE

- Are interested in learning more about innovation and entrepreneurship
- Are interested in pursuing a graduate degree in the United States or other Western countries
- Wish to improve their professional, academic, and English language skills and to have an authentic experience of American culture, and as such, stand out in the job market

SUMMER IN U.S.A. **SUMMER STUDY PROGRAM** American University

LANGUAGE OF INSTRUCTION English

APPLICATION DEADLINE • March 31st

ABOUT AMERICAN UNIVERSITY

American University (AU) is located in Washington D.C. The establishment of AU in 1893 embodies George Washington's dream of building a "national university" in the nation's capital. AU's more than 12,000 students are a microcosm of the world's diversity. AU has seven academic divisions: College of Arts & Sciences, Kogod School of Business, School of International Service, School of Communication, School of Professional and Extended Studies, School of Public Affairs, Washington College of Law

The three-week study program consists of a two-week, intensive study and cultural experience in Washington DC followed by one week of guided travel in New York City.

From the courses, lectures, tours, campus visits and excursions, the students who participated in the American University G-MEO Summer Study Program will carry home with them a treasure chest of memories, experiences, and friendships to propel them forward in their academic careers.

PROGRAM HIGHLIGHTS

- Overview of American politics, international relations, and culture
- Prestigious universities visit: Columbia University, New York University, Princeton University, United States Military Academy (West Point), Georgetown University, American University, George Washington University
- Real American education experience: Course taught by American University faculty members and live in AU dorms
- Certificate of the program provided by American University
- Distinctive cultural experience: U.S. capital Washington, D.C., and the economic and financial center - New York City

WHO SHOULD PARTICIPATE

- Who are seeking a higher education in U.S. and other western countries
- Who intend to develop leadership skills and enhance team working capabilities
- Who want to become outstanding talent in international job market
- Who are eager to improve their professional, academic, and language skills

FAQ

NEED HELP?
WE'VE GOT YOU COVERED!

1. Who is eligible to apply?

Undergraduate students, or high school students in 11th or 12th grade in the US.

2. Who will my classmates be?

You will study with students from different US universities, including but not limited to Chinese international students, with a pure US classroom atmosphere. After class, G-MEO will organize various kinds of extracurricular activities to help student make friends, build their network, and widen their view of the world.

3. Which university is G-MEO partnering with?

G-MEO is an independent international education organization. G-MEO co-established the Chengdu American Center for Study Abroad with the endorsement of the Chengdu municipal government. The Center offers US university credits year-round, including Spring/Fall semesters and Summer sessions, with academic calendars very similar to those of US universities. For Summer sessions, one of our partner universities, Fairleigh Dickinson University (FDU), serves as the School of Record, and issues transcripts at the end of the session.

4. Who provides the academic courses for G-MEO's Summer sessions?

The G-MEO Summer courses are provided US universities, including Fairleigh Dickinson University (FDU), the biggest comprehensive private University in New Jersey. All courses are part of the US university undergraduate study curriculum. Universities will supervise and monitor academic quality as a whole.

5. Will the credits be transferable?

Fairleigh Dickinson University (FDU) will issue the transcripts at the end of the Summer sessions and send the hard/electronic copies to the students' home institutions. In order to ensure that all credits transfer, G-MEO's academic counselor will help get each student's course selection approved by the academic advisor at their home institution before admission. Throughout G-MEO's history, all credits have been transferred successfully. All students' scores and transcripts will be recorded permanently by partner universities so that students can turn to FDU to request additional copies for graduate study or other purposes.

6. Will FDU credits be recognized by other Universities?

Generally speaking, there is no problem with mutual recognition between regular American universities. In order to reduce the risk, we will guide students to contact their academic advisor for approval before getting admitted and receiving their invoice.

7. What is the process like for credit transfer?

After the program ends, FDU will send the transcripts to the undergraduate admissions office of each student's home university. The admissions office will get the credits transferred and input the information in the school's system. Usually, it takes about 2 weeks to 2 months based on different procedures/situations in different universities.
